

GLOW UP

The winter months can be a struggle for those who live for their bronzed summer skin. Your confidence drops, and so does your mood, especially when the only alternative to being the shade of a December frost is being that of a tangerine!

Our gift to help you go in to the New Year with a self-loving attitude is Lusso Tan.

The tans organic formula melts into your skin like butter, but without the smell! It is fragrance free and doesn't leave you feeling sticky or uncomfortable while you wait for it to develop.

Anyone can step into 2024 bronzed, even you mummies-to-be! Let's all make the resolution to "release your inner glow!"
